

# Laboratory for Atmospheres

Goddard Space Flight Center

## Outstanding Performance Award – Science

is presented to

# Bo-Wen Shen

SAIC

For his tireless, outstanding, and ground-breaking work on the development of an 1/8-degree global mesoscale model, which has shown considerable skill in forecasting the tracks and intensity of hurricanes during the very active 2005 hurricane season.

September 21, 2006

William K.-M. Lau, Chief  
Laboratory for Atmospheres, Code 613
